

August 2016

- The planetarium was painted flat black after everything was removed.
- All the electrical was performed by Omega electric and completed for the new digital system.
- Young's installed the new carpet in the planetarium. The seat will go back in soon.
- We had our annual state inspector here for the elevator and everything is ok.
- Bliss Painting has started on the Bank and Chris has a video of Doug talking about how much damage is done to the front of the bank from water getting inside.
- Zann's construction was here to give an estimate on the repairs of the back loading, front walk way and handicap ramp. Which he stated we should be using a different salt that is safer for concrete. If we switch to the safer salt it is \$20 for a 40lb bag compared to \$10 for a 50lb bag that we currently get. He said to look for salt with calcium chloride.
- Tim from Environmental excavating also came and was going to give a bid for the back loading dock and front walk way and handicap ramp.
- I called Bedrock to get a bid but nobody every called me back or showed up.
- We did have two kids that came in to look at the back patio but that job was too big for them Mike Abletinger could explain their actions.

- Tod Brittan and Russ from Meridian came over to look at the back patio to make sure there plan would still work from the 1st time they were here. During this time Russ offered a free walk thru of the whole exterior of the build to make a plan at what needs to be fixed. He will send me a copy of his proposal with each job broken down.
- Before Russ did the walk thru, Chris and I did one earlier in the month and there were only a couple of things that we missed and he pointed out.
- Chris mentioned that some board members asked about getting some quotes for having the front lawn cut. I will have them ready for the next meeting.
- The store is still plugging along and still looking at different items to sell. Keeping track of the inventory is helping a lot. When it comes time to re order.
- Chris brought in a young lady named Jessica Peck from star staffing. She will be cleaning on Mondays and the front desk for the rest of the week. So I spent a couple days training her.
- Also taking some time here and there to read the reaccreditation file.

Thank you,

Matt Klimczak
